PROFESSIONAL SUMMARY

B.Tech Biotechnology undergraduate with an **SGPA of 8.6**, passionate about biotechnology, bioinformatics, artificial intelligence in healthcare, and interdisciplinary research. I am skilled in **Biotechnology, Python development, and Web Development**, with hands-on experience in building web applications and solving technical problems. I am interested in integrating biology and technology to develop innovative healthcare solutions. Seeking internship and research opportunities where I can apply my technical, analytical, and problem-solving skills while contributing to impactful projects in biotechnology and AI.

EDUCATION

Rama University

Jun 2024– May 2028

B.Tech Biotechnology (2024–2028) CGPA: 8.6/10

•Relevant Coursework: Molecular Biology, Microbiology, Genetics, Bioinformatics, Bioprocess Engineering

Tilak Inter College School

April 2023 – Feb 2024

Class XII (UP Board): 79%

Sardar Patel Rashtriya Inter College

April 2022 - Feb 2023

Class X (UP Board): 77%

PROJECTS

MediConnect – AI Driven Telemedicine Platform

Designed an AI-assisted telemedicine solution for improving healthcare accessibility in underserved communities. Contributed to healthcare workflow planning, solution architecture, and user-centric Web Applications. Proposed multilingual AI chatbot, doctor dashboard, e-prescriptions, and digital health record management. Presented the project at the Manipal Biotech Hackathon and received a Certificate of Excellence.

PowerShare (Power Bank Rental Web Application) -

Developed a web-based Power Bank Rental application that enables users to locate nearby charging stations, rent power banks, and manage rentals efficiently. Built core functionalities such as user authentication, station discovery, rental management, and a responsive interface while strengthening web development and problem-solving skills.

Cafe Management Web Application –

Developed a web-based Cafe Management application that enables users to browse menus, place orders, and manage their cart seamlessly. Built features including user authentication, order management, and a responsive interface while improving web development and UI/UX design skills.

LEADERSHIP & EXPERIENCE

1-Web Developer, CodeKabila • Organized coding workshops, hackathons, and technical events. • Coordinated teams and promoted collaborative learning.

2 -Google Developer • Completed a virtual internship focused on Google technologies, web development, and software development practices.

3 -Python Developer Virtual Internship (EduSkills–AICTE) • Completed training in Python fundamentals, Web Developer.

TECHNICAL SKILLS

Programming: Web Development, R language, MongoDB, Python, DSA

Biotechnology: Molecular Biology, Laboratory Skills, Public Health

Healthcare: Telemedicine, Healthcare Innovation

Tools : Microsoft 360, Postman, Jupiter Notebook, VS Code, Vercel

Soft Skills: Leadership, Communication, Teamwork, Problem Solving

CERTIFICATIONS & ACHIEVEMENTS

- Certificate of Excellence – Manipal Biotech Hackathon

- NPTEL: Molecular Biology

- NPTEL: Public Health

- HP : Professional Networking for Career Growth

- Robotics & IoT Workshop

- Python Web Developer Internship (EduSkills)

- Google Developer Virtual Internship.
